

THIS FOURTH OF JULY, PROCLAIM YOUR INDEPENDENCE FROM HACKERS BY

PROTECTING YOUR IDENTITY.

-  Keep your identity a secret by covering up your webcam.
-  Opt to use two-factor authentication when available in order to ensure it is really you when you are accessing your important data.
-  Use the private browsing option on Firefox and Safari to make sure what you are seeing is for your eyes only.
-  Turn on cookie notification in your browser so that you know when a website is attempting to track your user behavior.
-  Always look for the Lock Symbol or "Https" prior to logging into any secure site.

**SECURITY IS EVERYONE'S
RESPONSIBILITY!**
