

Show mom how much you care

by teaching her to be cyber aware!

1. Encourage her to carefully consider the privacy of herself and others when posting personal photos and details online.
2. Remind her that locking her device is the same as locking the front door to her home.
3. She told you that if something is too good to be true, it probably is – avoid free WiFi and the problems that come with it.
4. Guide her to use safe e-commerce retailers when she is looking for that next bargain.
5. Inspire her to learn about the latest phishing techniques so she can help keep her friends and family cyber secure.

Better than a tattoo!

**SECURITY IS EVERYONE'S
RESPONSIBILITY!**
