School Accountability Report Card

Reported Using Data from the 2017-18 School Year

Published During 2018-19

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2018-19)

Mission Statement: As members of Juvenile Court and Community Schools (JCCS), we are committed to high expectations, social justice, and equality for all students. We value diversity and strive to eradicate institutionalized racism and discrimination in all forms. Our priority is to raise achievement of all students while eliminating the achievement gap between students of color and white students. We accomplish this through the delivery of culturally and linguistically responsive standards-driven instruction, courageous and advocacy-oriented leadership, and relevant professional development. All JCCS community members stand personally committed and professionally accountable for the achievement of this mission.

San Diego County Community Schools comprises multiple campuses located throughout San Diego County. While each of our campuses is tailored to meet the diverse needs of each student population, all are united by our common mission and vision to provide students and the families we serve with the highest-quality education. Each of our classes is taught by a highly qualified teacher. Within our community schools, we offer several teaching and learning models ranging from traditional community school classes, interdisciplinary project-based learning, and a variety of independent-study models. The San Diego County Community Schools program is operated as a Title I schoolwide program. A brief summary of each is provided below:

Community school classes:

These programs typically run from 8 a.m. to 2:30 p.m. each day with students in grades 7 through 12 who have been referred by local school districts, probation, or by parent request. With few exceptions, our community schools are staffed by multiple teachers with content-area knowledge to support student learning. Students have access to a variety of career technical education classes offered at their school site and other JCCS sites.

Interdisciplinary project-based learning (iPBL):

Approximately 50 percent of the community school sites are either utilizing or moving toward an iPBL instructional framework for face-to-face instruction. One of the primary goals in iPBL is for students to learn deeply (depth over breadth) and to then demonstrate that deeper learning through a real project designed for and presented to a real audience. A few other noteworthy aspects of our iPBL instructional framework are that (a) all interdisciplinary projects (units of study), regardless of academic discipline, are designed to support our students with career readiness (emphasizing “soft skills” such as punctuality, positive attitude, motivation, collaboration, etc.) and literacy/language development (making sure our students are regularly reading, writing, and speaking), and (b) our career technical education (CTE) and visual and performing arts (VAPA) course offerings are integrated into the iPBL framework by connecting their course’s learning objectives and projects to the high-interest connecting topic or theme and making sure projects from these courses are featured at an exhibition of learning.

Independent study models:

These programs allow for flexibility in teaching and learning to meet the individual needs of students. The school programs offer the opportunity for daily direct teaching and weekly support in all core subjects. Students are able to receive instruction from a combination of direct face-to-face teaching, online curriculum, and individualized support from teaching staff.

Community School goals are aligned with the goals of the San Diego County Office of Education's Local Control and Accountability Plan (LCAP):

- Goal 1. Ensure excellence in teaching and learning so each student is prepared to succeed in college and career.
- Goal 2. Cultivate stakeholder engagement to support excellence in each student's success.
- Goal 3. Develop coherent and transparent systems for operational excellence to support each student’s success.
- Goal 4. Support the integration and transition of students who are at-risk, expelled, English learners, and foster youth to be prepared to succeed in college and career.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

* Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

Year and month in which data were collected: August 2016

All textbooks and instructional materials used within the San Diego County Community Schools are aligned with the California Standards and frameworks and, in grades K-12, have been selected from the state-adopted list of standards-based materials. The San Diego County Community Schools follow the State Board of Education's adoption cycle for core content materials. JCCS holds a public hearing annually to determine that each JCCS program has sufficient and quality textbooks or instructional materials, pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are provided their own textbooks in core subjects for use in the classroom and to take home to complete required homework assignments. Additional information regarding state-adopted instructional materials can be obtained from the JCCS office.

School Facility Conditions and Planned Improvements (Most Recent Year)

We have a total of 15 San Diego County Community Schools sites. All our sites scored 100 percent in gas leaks, HVAC, interior surfaces, sewer, overall cleanliness, pest/vermin infestation, electrical, fire safety, roof, windows/doors/gates/fences, and hazardous materials.

School Facility Good Repair Status (Most Recent Year)

Using the **most recently collected** FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The year and month in which the data were collected
- The overall rating

School Facility Good Repair Status (Most Recent Year) Year and month of the most recent FIT report: January 2019

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students Grades Three through Eight and Grade Eleven

Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	2016-17	2017-18	2016-17	2017-18	2016-17	2017-18
English Language Arts/Literacy (grades 3-8 and 11)	6.0	6.0	51.0	52.0	48.0	50.0
Mathematics (grades 3-8 and 11)	1.0	0.0	44.0	44.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in ELA by Student Group Grades Three through Eight and Grade Eleven (School Year 2017-18)

Foster Youth	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

Career Technical Education Programs (School Year 2017-18)

The SDCOE JCCS Career Readiness and Technical Education (CRTE) department provides CTE classes, and grant-funded career readiness opportunities for high school youth. Our community schools are based in regions as follows: Metro region students can select from CTE graphic arts and production, and CTE marketing, sales, and services, with CTE culinary arts and CTE event management coming soon. North County region students are offered CTE graphic arts and production. East County students are offered CTE horticulture, with CTE sales, marketing and services and CTE graphic design and production coming soon. We are currently developing CTE in our South County region. CTE teachers work in partnership with other departments to provide aligned curriculum. The CTE program is evaluated by the number of students enrolled, the number of students completing courses, and industry credentials earned. This is measured through our yearly data gathering in California Department of Education's Consolidated Application. CRTE offers the Pathways to Justice and Workability grant for interested students who qualify to receive grant-funded services including paid internships, work based learning, and supportive services.

The CTE Advisory Council is facilitated by the CTE program specialist and includes local industry partners from building and construction, culinary arts, public service, small business, non-profits, the local workforce investment board, and event management. The council is always looking for additional partners. All CTE teachers, and our career readiness staff, participate in all council meetings.

Career Technical Education Participation (School Year 2017-18)

Measure	CTE Program Participation
Number of pupils participating in CTE	94
% of pupils completing a CTE program and earning a high school diploma	0

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (School Year 2018-19)

Our Student and Family Engagement team provides regular workshops related to student attendance, legal issues faced by students, parenting, and informational parent meetings. SAFE also connects families with community-based organizations to increase access to medical and dental treatment, housing, mental health support, food pantries, transportation, child care, and legal support to enhance the overall health and well-being of our students and families. Parents are strongly encouraged to participate as members of the School Site Council, English Learners Advisory Committee, Local Control and Accountability Plan, and other groups. The school has jointly developed with parents a written parental involvement policy. This involvement policy specifies:

- Policy involvement for parents
- Shared responsibilities for high student academic achievement
- Building capacity for involvement
- Accessibility

School Safety Plan (School Year 2018-19)

The school safety plan was reviewed, updated, and approved by school staff, stakeholders, and parents in December 2018 and will be approved by the San Diego County Board of Education Board in February 2019. The plan includes assessments of school safety, school discipline policies and practices, funding, professional development activities, counseling services, collaborative relationships with agency community partners, safe schools' programs and strategies, and campus security.

Professional Development (Most Recent Three Years)

During the 2017-18 school year, JCCS teachers, support staff, and administrators took part in a variety of professional learning to ensure every student is prepared for college, career, and community success. Based on student achievement data, a strong emphasis was placed on content area knowledge and pedagogical skills to improve student outcomes in English language arts and mathematics. The 2017-18 school year was year three of JCCS's implementation of integrated math for high school students. All JCCS math teachers were expected to work with a math coach to support them in teaching integrated math with fidelity. All JCCS employees took part in continued restorative practices training to develop common language, philosophies, and practices to support students and families. All teachers had access to one-on-one and small-group coaching with our cadre of instructional coaches to work on self-identified instructional support. During the 2017-18 school year, an increased emphasis on supports for our English learners was integrated into all professional learning. In addition, all teachers and staff received annual training on meeting the needs of our students with disabilities. All JCCS teachers also received a full day of professional learning on youth mental health first aid to support students experiencing mental health challenges. Additionally, during the 2017-18 school year, Community Schools staff members participated in Crisis Prevention Institute training that focuses on the safe management of disruptive behaviors. Community Schools teachers also received professional learning on backward design and how to use curricular resources to support students with meeting content standards and demonstrating their learning through culminating projects. Finally, since July 2004, JCCS has participated in the South County Induction Consortium, formerly known as Beginning Teacher Support, to support newly credentialed teachers.
