

Eligibility for HOPE Infant Family Support Services

Services are available to children from birth to 3 years old who are showing significant delay in at least one area of development or have a condition with a known probability of causing a disability or delay.

Once eligibility has been determined, an Individualized Family Service Plan is developed by a team that includes the family and early intervention specialist from the San Diego County Office of Education, San Diego Regional Centers for the Developmentally Disabled and other California Early Start agencies. The plan defines outcomes and services that address the family's home, neighborhood and community in English or Spanish, with interpreters available to families who speak other language.
