

Standards of Quality for Family Strengthening & Support

A Certification Training presented by
The San Diego Family Strengthening Network in partnership with
San Diego County Office of Education

- How can we work with parents and families most effectively?
- What does it mean to be a quality Family Strengthening and Support program?
- How can managers, staff, and families work together to develop and sustain quality programs?

This full-day certification training on the Standards of Quality for Family Strengthening & Support details how the 9 Principles of Family Support and the Strengthening Families Approach, with its evidence-informed 5 Protective Factors, can be applied together to enhance your work with families. Whether you are setting up a new program or strengthening an existing one, the Standards provide a blueprint for implementing best practice.

Participants are highly encouraged to come in teams as school staff and partner agency staff including at least one parent leader and site administrator as each has a key role to play in implementing the Standards effectively.
Participants who complete the full session will receive a certificate from the California Network of Family Strengthening Networks that is valid for two years.

In accordance with the Americans with Disabilities Act, if you need special accommodations to participate, please contact Amanda Holt (858) 292-3666 at least 48 hours in advance.
